Ambir Technology Partners with athenahealth's 'More Disruption Please' Program to Integrate Document Capture Directly to Patient Records Through AmbirScan® Connect

Wood Dale, IL – November 17, 2017 – Ambir® Technology, a provider of digital capture and document management solutions, today announced a partnership with [athenahealth, Inc.](#) through athenahealth's '[More Disruption Please](#)' (MDP) program. As part of the [athenahealth® Marketplace](#), this newly integrated application is now available to athenahealth's growing network of more than 106,000 healthcare providers for attaching clinical documents, administrative documents, lab results, insurance cards, and IDs to patient records in athenaNet®.

"Ambir Technology delivers a valuable service for accelerating and simplifying the insertion of vital scanned documents into the patient record," said John Capurso, Chief Marketing and Sales Officer of Ambir Technology. "**AmbirScan Connect** accelerates the process and workflow of scanning and attaching documents, insurance cards, driver's licenses, and photos on driver's licenses by letting you directly attach or 'push' these scanned documents into athenaNet patient records."

athenahealth is a network-enabled, results-oriented services company that offers medical record, revenue cycle, patient engagement, care coordination, and population health services for hospital and ambulatory clients. The company's vision is to build a national health information backbone to help make healthcare work as it should. As an MDP partner, Ambir Technology joins a network of like-minded healthcare professionals who are looking to disrupt established approaches in healthcare that simply aren't working, aren't good enough, or aren't advancing the industry and help providers thrive in the face of industry change.

To learn more about Ambir's new integrated application, please visit Ambir's product listing page on the [Marketplace](#).
