IMMEDIATE RELEASE

Ambir Technology, Inc. Releases New nScan 700gt Hybrid ADF Scanner

Ambir Delivers Newest gt-Line Scanner, nScan 700gt

Wood Dale, IL – January 22, 2019 – Ambir Technology, Inc., the global leader in sheet-fed and ADF scanner products, introduces a new durable and compact hybrid ADF scanner with an innovative design

Ambir Technology, the global leader in sheet-fed and ADF scanner products, has announced the release of their newest scanner, the nScan 700gt. With an innovative design and compact size, the nScan 700gt is durable, portable and versatile, allowing for productivity wherever you go. The included AmbirScan software makes scanning and locating documents simple and straightforward while quick scanning through both ADF feed and front and rear sheet loading sides allows for increased scanning options and flexibility.

This unique hybrid scanner helps get your documents scanned quickly and thoroughly. Its durability ensures it thrives in any space in your work environment, including on the go. No matter where it is needed in your workspace or anywhere you go, the 700gt can make the trip. Bring it wherever you need secure, high quality scanning ability.

The 700gt captures high quality images of multi-page document through the sheet-fed tray and automatic document feeder. It is both productive and flexible, scanning up to 20 pages per minute (ppm) through the ADF feed and flexible sheet-fed front and rear loading sides of the scanner. Both sides of documents are easily scanned directly to PDF, searchable PDF, JPG, Word or Excel through enabled auto-scan. Included AmbirScan software makes scanning and finding documents easy. And an advanced TWAIN driver allows use with other scanning applications. With an innovative ADF design and compact size, the 700gt is easy to travel with and helps bring productivity and efficiency to any workplace. And with increased versatility, the 700gt is guaranteed to be the scanner for you.
