50-word description	The nScan 940gt-ATH with AmbirScan ADF-gt provides preset scan profiles specific to athenahealth users for one step scan imports, making scanning patient records and insurance and ID cards easy. Ideal for small practices, medical groups, and urgent care service, this scanner handles 80 pages up to 40 ppm in full-color.
Feature Bullet List	<ul style="list-style-type: none"> • Saves Time and Effort Make scanning easy. AmbirScan ADF-gt software comes with three preset scan profiles specific to AmbirScan ADF-gt for athenahealth users. These presets make it easy to upload insurance and ID cards and paper documents such as medical records or clinical documents to athenanet. • Versatility to do More The nScan 940gt-ATH holds up to 80 pages at a time and can scan 40 pages per minute. Powerful imaging hardware lets you capture double-sided images of documents, such as ID or insurance cards, that are crisp and clean for fast, true-to-life scans. • Dependable Performance The nScan 940gt-ATH is a smart, hardworking scanner. With ultrasonic technology available for selection upon launch, high-speed jams and misfeeds are easily prevented. This ensures your scans are crystal clear every time so patient information is fully and securely retained. • Handles High Volume Ultrasonic Detection ensures quick and easy precision scanning so you can focus on your patients. Designed for high volumes, the nScan 940gt-ATH can process up to 6,000 pages per day. • Ideal for Any Space The nScan 940gt-ATH features a practical design that makes it the right choice for medical practice application such as small practices, medical groups, and urgent care service. Perfect wherever you need professional grade image capture. • Blank Page Removal Blank pages are automatically removed so you don't need to worry about swapping between single and double-sided scanning.
