

i About Ambir Technology

Ambir Technology, Inc. is an industry leader in digital capture and document management solutions. Combining professional grade ID card and document scanners, unique digital imaging software and expert-level customer service, Ambir provides their customers with comprehensive, enterprise-level business solutions. Specializing in the healthcare, legal and financial sectors, Ambir helps organizations reduce costs, increase productivity and strengthen data security.

Standardizing on Ambir Technology Scanners for their Strong Compatibility, Competitive Price and Reliability While Scanning.

Baylor Scott & White Health is the largest not-for-profit health care system in Texas and one of the largest in the United States. With 48 hospitals and more than 800 patient care sites, Baylor Scott & White Health works to provide full-range, inpatient, outpatient, rehabilitation and emergency medical service to those that they serve. As the world of healthcare changes, so does Baylor Scott & White Health's approach to health, experience, affordability, alignment and growth. They constantly work to improve their process while continuing to uphold their core ideal of promoting the well-being of all individuals, families and communities. And as they look toward the future, Ambir scanners have been a constant in their spaces.

Ambir 940u and 490ix Document & Card scanners have been implemented at Baylor Scott & White for over 6 years and continue to be their go-to scanning option. Ambir ADF scanners have provided Baylor Scott & White Health the ability to quickly and easily scan documents as well as patient IDs and insurance cards.

Ambir focuses on high-speed, low-cost scanning solutions that address individual needs to provide customers such as Baylor Scott & White with comprehensive, enterprise-level solutions that directly fit their needs. "[Ambir Sales Representative to Baylor Scott & White Health] Kevin has been very responsive," said the IS Deployment Team Lead of Device Standards, "[the] new model is exactly what we were hoping for."

Ambir scanners have provided Baylor Scott & White Health with seamless Citrix compatibility at a competitive price. Because of these benefits, Baylor Scott & White Health has been able to implement Ambir scanners to optimize their document and card scanning process.

The partnership between Ambir Technology and Baylor Scott & White Health has resulted in increased efficiency brought about by an individualized solution that directly addressed the needs of Baylor Scott & White Health. With high-speed and low-cost solutions, Ambir works to provide a solution that fits the needs of each individual consumer.

*"[Ambir scanners'] fast scanning and no jams help us check in patients quickly,"
said the IS Deployment Team Lead of Device Standards*
